### IFRA COMPLIANCE CERTIFICATE FOR AUSTRALIAN TEA TREE OIL

#### Company Identification

Main Camp Natural Extracts Pty Ltd  
840 Main camp Road  
Rappville NSW 2469  
Australia

The company Main Camp Natural Extracts Pty Ltd, certifies that the supplied Australian Tea Tree Oil complies with the Standards of obligation of the Code of Practice of the International Fragrance Association (IFRA-48<sup>th</sup> Amendment ), provided it is used in the following class(es) at a maximum level of:

| IFRA Class(es) | Level of use (%) | IFRA Class(es) | Level of use (%) |
|----------------|------------------|----------------|------------------|
| 1              | 5                | 7A             | 5                |
| 2              | 5                | 7B             | 5                |
| 3A             | 5                | 8A             | 2                |
| 3B             | 5                | 8B             | 2                |
| 3C             | 5                | 9A             | 5                |
| 3D             | 5                | 9B             | 5                |
| 4A             | 5                | 9C             | 5                |
| 4B             | 5                | 10A            | 2.5              |
| 4C             | 5                | 10B            | 2.5              |
| 4D             | 5                | 11A            | No restriction   |
| 5              | 5                | 11B            | No restriction   |
| 6              | 5                |                |                  |

For all other applications, or use at higher concentration levels, a new evaluation will be required.

The IFRA standards regarding use restrictions are based on safety assessments by the Research Institute for Fragrance Materials (RIFM) expert Panel (REXPAN), and are enforced by the IFRA Scientific Committee. Evaluation of individual fragrance materials is made according to the safety contained in the relevant section of the IFRA Code of Practice.

It is the ultimate responsibility of the customer to ensure the safety of the final product containing this fragrance, by further testing, if necessary.

The above mentioned fragrance products contains ingredients which are NOT considered GRAS (Generally Regarded as Safe as a Flavor Ingredient).
